	Room R112	Room R111	Room R113	Room M11	Room M12	Room R204
Session SA 10:00 - 10:50	Environmental and Social Justice in Grade 9 Geography of Canada Samira Sud and Ali Solaja SA01	Environment Education Through the Use of Autobiography Kevin Lambert SA02	Numeracy Activities for Grade 9 Geography Juli Mori SA03	Social Change Games - Computer Simulations for the Classroom Mike Farley SA04 <i>Double Session</i>	Creating a GIS Lesson Kaitlyn Jones and Iain Greensmith SA05	Financial Literacy Facilitated by Mark Lowry <i>Special Session</i>
Session SB 11:00 - 11:50	Social Justice and Student Empowerment Neil Orłowsky SB01	Creative Project-Based Learning for Environmental Education Brandon Love and Joel Hilchey SB02	Geographic Literacy: A Benchmark Study of Ontario Secondary School Students Approaching Graduation Chris Charman SB03		Google Applications in the Classroom Jodi Bigelow SB05	
Session SC 12:00 - 12:50	Bread and Water, Teaching Social Issues Stephen Helleiner SC01	Turning You on to Turnitin Devorah Salsberg and Andrew McConnell SC02	Increasing Ecological Awareness Through Documentary Film: A Media Literacy Exploration Leah Percy SC03	e-learning with Habitat in the Balance David Lunn SC04	<i>Double Session</i>	

1:00 - 2:00 pm	Lunch [SAC Great Hall]	 ESRI Canada
-----------------------	-------------------------------	--

<p>FRIDAY FIELD TRIPS – 1:45 pm – 4:45 pm</p> <p>Field Trip FT01 York Region Planning Department The York Regional Planning and Development Services Department will show how GIS was used for modelling and planner assistance. Social media and citizen engagement is helping to shape Vision 2051, an initiative that represents a new blueprint for the Region's future. Finally, you will discover how the Region's cutting edge Geomatics Branch is using geospatial technologies such as 3D GIS and web mapping to model future growth scenarios and empower local communities with accurate and up-to-date spatial information.</p> <p>Field Trip FT02 GPS in Action at Lake St. George Field Centre This excursion to the Lake St. George Field Education Centre, operated by Toronto and Region Conservation Authority, will have participants receive a short introduction to GPS technology before stepping outdoors to do some GPS orienteering activities. Come dressed for the weather! GPS units provided. Enjoy the beautiful Oak Ridges Moraine while gaining hands on experience and ideas to take back to your classroom.</p>
--

<p>SATURDAY FIELD TRIPS – 10:00 am – 1:00 pm</p> <p>Field Trip ST01 Greener Parks: Aurora's McKenzie Wetland and Sheppard's Bush The town of Aurora is fortunate to have an extensive trail system to connect many parks and walking trails, and these parks and trails are getting greener. This field trip, lead by Jim Tree, Aurora Parks Manager, will feature a tour of the new board walk and trail in the McKenzie Wetland where reconstruction has reduced wetland loss and enhanced wildlife protection. The field trip will also highlight a visit to the new permeable parking lot at Sheppard's Bush's where recycled glass mixed with a bonding agent permits the passage of water to the ground without other contaminants such as motor oil.</p> <p>Field Trip ST02 Oak Ridges Moraine Hike The Oak Ridges Moraine is an environmentally sensitive, geological landform in south central Ontario that covers 190,000 hectares. The hike will begin at Mary Lake and end with a visit to Pine Farms Orchard and Winery. There will be discussions of the local geography, the ecological functions of the Moraine and the impacts of advocacy and legislation on this special region. At Pine Farms Orchard and Winery you will have the opportunity to purchase some treats from the bakery.</p>
